

XXIII International Conference «Digital Signal Processing and Its Applications»

The Conference DSPA is the biggest ever digital signal processing (DSP) conference hold in Russia. It aims to cover the main areas and subjects of DSP. The Conference DSPA'2021 is waited to have a success to bring together the leading experts from theoretical and application areas of DSP to work in these areas and to create a friendly and relaxed atmosphere to talk about the most important issues in these fields.

DSPA' 2021

Plenary presentations by leading scientists and specialists

Publication in IEEE

Workshops from hardware and software manufacturers

A platform for communication, exchange of ideas and experience

Sections

Theory of signals and systems

Theory and methods of digital signal processing

Signal processing in communications

Signal processing in radio engineering systems

Image processing and transmission

Signal processing in bioengineering systems

Digital design and signal processing implementation

Machine vision, robotics, and artificial intelligence

Fee

Publication in IEEE proceedings - €125

Gala Dinner - extra €25

Publication in RNTORES proceedings - information on registration fees is published at www.rntores.ru

Full paper submission deadline: January 15, 2021

Notification of acceptance: February 28, 2021

Conference dates: March 24-26, 2021

Organizing Committee

Chairman of the International Organizing Committee: corr.-member RAS Yuriy Zubarev

Co-Chairs: Vladimir Vityazev, Aleksey Kirpichnikov, Gennady Samsonov

Deputy Chairman of the International Organizing Committee: corr.-member RAS Aleksandr Dvorkovich

Chairman of the International Conference Program Committee: acad. of RAS Yuriy Gulyaev

Deputy Chairman of the International Conference Program Committee: acad. of RAS Igor Federov

Organizers

AUTEX Ltd
